Organizational Overview

Community Change, Inc. (CCI) is a national education, youth development, parent engagement, and community development organization supporting the survival and success of youth, adults, and the agencies that serve them. CCI delivers structured, scalable services to schools, districts, nonprofit organizations, institutions of higher education, and government agencies at the local, state, and federal levels.

To ensure consistency, quality, and scalability, CCI offers Teacher PAI (Pedagogical Artificial Intelligence) to agencies as a resource for designing pre-school through 12th grade and adult education curricula that is designed to simultaneously address academic content, participants' interests, and real-world challenges.

Pedagogical Framework & Instructional Technology

CCI's instructional approach integrates academic content, participant interests, and real-world challenges. Instruction is designed to develop participants critical thinking, research and executive functioning/management skills through engaging exploratory and expression exercises.

Teacher PAI (Pedagogical Artificial Intelligence) is CCI's proprietary, A.I.-powered curriculum development platform used across services to generate structured, project-based sequential, lessons aligned with CCI's instructional approach. Teacher PAI enables educators and partner agencies to create up to five, high-quality and engaging lessons at a time, customize instruction by age group and audience type, maintain fidelity across multiple sites, and reduce staff workload.

Six Core Services

Youth Programs

CCI implements meaningful, high-engagement programming for pre-K–12 youth and adult learners using structured, project-based lessons. Programming integrates academic skills with interest-based activities to explore real-world themes while reinforcing attendance, punctuality, participation, and executive functioning.

Parent, Family & Community Engagement

CCI offers a comprehensive suite of services to strengthen school–family–community connections, including virtual and in-person workshops, community resource sessions, advisory councils, special events, and action projects that actively engage families and community stakeholders.

Staff Development

CCI provides professional learning for educators, teaching artists, social workers, and administrators focused on effective implementation of the Community Change Pedagogy. Training is delivered through workshops, coaching, and an online Training Academy, and may include Continuing Teacher and Leader Education (CTLE) credit for New York State educators.

Curriculum Development

CCI designs courses and curriculum guides for pre-K–12 youth and adults centered on real-world themes. This service includes licensing access to Teacher PAI,

enabling agencies to generate customized, standards-aligned lessons with consistency and scalability.

Strategic Planning

CCI supports agency leadership through coaching and facilitated planning sessions that guide the development of strategic plans, strengthen organizational culture, and address programmatic and operational challenges.

Grant Writing

CCI provides comprehensive grant writing and fund development services, supporting agencies in identifying, pursuing, and securing government funding opportunities aligned with organizational capacity and mission.

Programs

CCI provides agencies with structured, project-based programs in the following thematic areas:

- Career exploration and workforce readiness
- Civic engagement and social action
- Culinary arts, healthy eating, and food systems
- Culture and diversity
- Black studies, history, and culture
- Latino studies, history, and culture
- 21st-century and life skills
- Financial literacy and economic development
- Conflict management and relationship education
- Arts-based learning and creative expression
- Science, technology, engineering, agriculture, and mathematics (STEAM)
- Academic support and college readiness
- Male-focused mentoring and leadership development
- Female-focused mentoring and leadership development
- Specialized supports for students in temporary housing

Integrated Service Delivery

Services may be offered as stand-alone engagements or bundled into comprehensive solutions. For example, CCI's Comprehensive Youth Program Services package integrates in-school and afterschool youth programming; staff training and coaching; parent and family engagement activities; curriculum

development using Teacher PAI; special events to showcase youth learning; and community-based action projects.

This integrated approach ensures academic, engagement, and community goals are addressed simultaneously while supporting long-term sustainability.
